to October 21, 2020

Presenting Working Groups' Recommendations for the Governor's Council on Climate Change

On September 3, 2019, Governor Ned Lamont issued [Executive Order No. 3](#) (E.O. 3) establishing the Governor's Council on Climate Change (GC3) charged with implementing greenhouse gas emissions reductions strategies, preparing and adapting our state for the impacts of climate change, and ensuring strategies are equitable and protect the most vulnerable communities.

The Council established seven Working Groups to assist the Council with carrying out the order. The Working Groups will post draft reports for public review on the [GC3 website](#) by September 22 and accept written comments emailed to deep.climatechange@ct.gov until 11:59pm on October 21, 2020. On September 21 the GC3 will launch a series of virtual public forums presenting the reports and providing opportunities for public participation. The GC3 welcomes everyone to attend these events to learn more about climate change in Connecticut and how we can address it.
